is a forum for women from various elements of society to share knowledge and support capacity building in disaster risk management and reduction.

+

•

○

Forum Objectives

- One of the goals of the Forum is to elevate women's initiatives at the local level to national and international levels.
- ***Strengthening advocacy and women empowerment in disaster management and disaster risk reduction with multi-stakeholder meaningful collaboration***
- Forum members come from ministries and agencies, international institutions, and civil society organizations

Major achievements and challenges observed in the last two years

Implementation of policies on gender inclusion in Disaster Risk Management and GBV prevention and management, including increased partnerships between government and stakeholder agencies on gender mainstreaming and women's involvement

+
●
○
Increased capacity development on gender inclusion, GBV prevention and management, and minimum standard for Sexual Reproductive Health in disaster emergency response

Increased focus on developing guidelines and assessment tools for sex age and diversity disaggregated data, as well as increased evidence and documentation on good practices on gender and social inclusion

Increased opportunities for discussion on women's meaningful participation and leadership in disaster risks reduction and disaster management

Permenag No. 73 Tahun 2022

- discussions with the PMK (Policy Making Council) about sexual violence issue in the education sector, even in Islamic boarding schools,
- Women's Forum presented proposals (DIM) for the Minister of Religion Regulation, which has been published on October 5, 2022 with the number: 73 of 2022 on "***Prevention and Handling of Sexual Violence in Educational Units at the Ministry of Religion***".
